

New Equitable and Innovative
Educational Association (NEIEA)

**IMPACT
REPORT
2022-24**

NEIEA'S INTRODUCTION

NEIEA is committed to revolutionizing education through innovative approaches and extensive collaborations. Since April 2022, NEIEA has introduced 13 free online courses and partnered with various institutions to benefit thousands of learners. Additionally, NEIEA is recognized for its credibility and transparency, having obtained the 80G certification for tax-exempt donations and a Darpan ID to ensure compliance and accountability in its operations.

VISION

To envision a society where all youth and citizens are able to obtain good quality education and use this to transform society ensuring human welfare, sustainability, and progress.

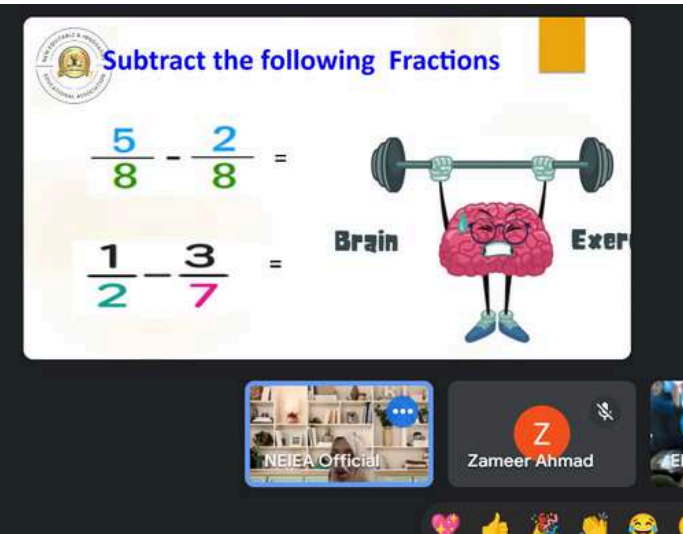

MISSION

To provide good quality and innovative education to all segments of society with high consideration given to providing free education to the poor.

OUR ACHIEVEMENTS

ONLINE COURSES NEIEA has constructed 13 online courses like English, Math, Sciences, computer science and other subjects catering to NIOS .	13
LIVE ONLINE CLASSES NEIEA conducts 49 online classes running from 6:00 am till 10:00 pm to accommodate diverse learners schedules.	49
COLLABORATORS NEIEA has collaborated with 39 institutions and is continuously working with more institutions to expand its reach and engage more learners across India.	39
ENROLLMENTS NEIEA has enrolled over 10116 individuals from various age groups, ranging from 8 years to 40+ years.	10116
COURSE COMPLETIONS Out of the enrolled learners, approximately 3845 have completed the courses.	3845
CERTIFICATIONS NEIEA has certified 1500 learners including individuals and learners from various institutions.	1500

BUILDING CRITICAL THINKING USING MODERN PEDAGOGY

The screenshot shows a digital interface for an online session. At the top left is the NEIEA logo. The main content area displays a math problem: "Subtract the following Fractions" followed by $\frac{5}{8} - \frac{2}{8} =$ and $\frac{1}{2} - \frac{3}{7} =$. To the right of the fractions is a cartoon brain character with a face, arms, and legs, holding a barbell. The words "Brain" and "Exer" are visible on either side of the brain. Below the main content, there is a video feed of a person labeled "NEIEA Official" and a name tag for "Zameer Ahmad". At the bottom, there are several colorful reaction icons like hearts, thumbs up, and emojis.

NEIEA uses a modern pedagogy called Discourse Oriented Pedagogy (DOP) to nurture critical thinking. This is unlike the widely used Rote-memorization pedagogy applied in most schools that stress on learning through memorization.

NEIEA has integrated discourse-oriented pedagogy into the secondary syllabus offered by NIOS, emphasizing interactive and collaborative learning through discussions, debates, and idea exchanges.

The screenshot shows a classroom full of students, mostly girls wearing white hijabs and uniforms, sitting at their desks. They appear to be engaged in a lesson. In the bottom left corner, there is a red location pin icon. Below it, a yellow banner contains the text "BARABANKI, UP". Above the banner, there is a small video feed of a person labeled "Danish Ali".

Using trigger activities with visuals, pictures, and videos enhances comprehension, while brainstorming sessions promote collaborative learning.

The benefits include improved communication skills, teamwork, empathy, and respect for diverse viewpoints. Students develop critical thinking, question assumptions, and form well-reasoned opinions.

ASSESSMENT

At NEIEA, assessment is a crucial part of our impact reporting process. We conduct both baseline assessments at the beginning of each course and final assessments at the end. To earn a certificate, learners must maintain a minimum attendance of 85%, complete all assignments, and participate in all module tests. These assessments ensure that learners have grasped the material and are equipped with the skills necessary to apply what they've learned.

GIRLS EDUCATION

At NEIEA, we recognize the transformative power of education in the lives of young girls. By providing free courses to every girl child enrolled in our courses, we aim to break down the barriers that often prevent them from accessing quality education. Our commitment is reflected in the fact that 80% of our 10116 learners are girls, a testament to our success in creating inclusive and supportive learning environments. We believe that educating girls is crucial not only for their personal development but also for the advancement of their communities and society at large.

WOMEN EMPOWERMENT

NEIEA's dedication to women's empowerment is evident in our predominantly female teaching team, with 90% of our educators being women. This creates a powerful dynamic where our girl learners can see and learn from strong female role models on a daily basis. Our approach underscores the importance of gender equality in education and the workforce, ensuring that women have the opportunity to lead, inspire, and educate. By fostering an environment where women are both educators and students, we are breaking down societal barriers and promoting a culture of empowerment and respect. This commitment not only enriches our educational programs but also reinforces our broader mission of driving social change through gender equity and empowerment.

NEIEA EMPOWERING SLUM CHILDREN

NEIEA is making significant strides in supporting slum children through strategic collaborations with local organizations such as Umeed in Aligarh and MV Foundation (MVF) in Hyderabad. These partnerships have enabled us to reach and provide free educational resources to over 300 children living in slum areas. By working closely with Umeed and MVF, NEIEA ensures that these vulnerable children have access to quality education and the tools they need to succeed. Our collective efforts are transforming lives, breaking the cycle of poverty, and paving the way for a brighter future for these young learners.

NEIEA: INTEGRATING MADARSAS INTO MAINSTREAM EDUCATION

NEIEA is collaborating with more than 20 Madrasas across the country to help integrate their educational offerings into the mainstream system and enhance the quality of education provided. By focusing on foundational subjects such as English, Math, and Sciences, and by providing the NIOS secondary syllabus as well as the OBE 3rd, 5th, and 8th grade syllabi for mainstreaming, we ensure that students in these Madrasas receive a well-rounded education that prepares them for future academic and professional opportunities. Our efforts are aimed at strengthening the educational foundations of these institutions, thereby enabling students to gain essential skills and knowledge that are critical for their overall development and success in a rapidly changing world.

IT SKILLS TRAINING

Our organization provides IT skills training for children aged 12 and above to help them upskill. The IT training courses include Basic Computing, Google Applications, Google Workspace Suite, Microsoft Office (MS Word, MS PowerPoint, MS Excel), and Canva. We offer these courses for free. These programs are designed to help students enhance their skills and secure good jobs in the IT sector.

NEIEA CONNECTS TO THE SUSTAINABLE DEVELOPMENT GOALS (SDGs):

Quality Education: Inclusive and Equitable

At NEIEA, we are committed to advancing Sustainable Development Goal 4 (SDG4), which aims to ensure inclusive and equitable quality education for all. Our efforts are specifically focused on providing education to marginalized and underserved children, thus bridging the gap in access to quality education.

Inclusivity:

NEIEA is committed to ensuring inclusive education by focusing on marginalized and underserved children, such as those living in slums, lower castes, school dropouts, and tribal communities. These children, who have been historically excluded from quality education, are our primary target. By actively reaching out to these groups, we are making education accessible to everyone, ensuring no child is left behind.

Quality:

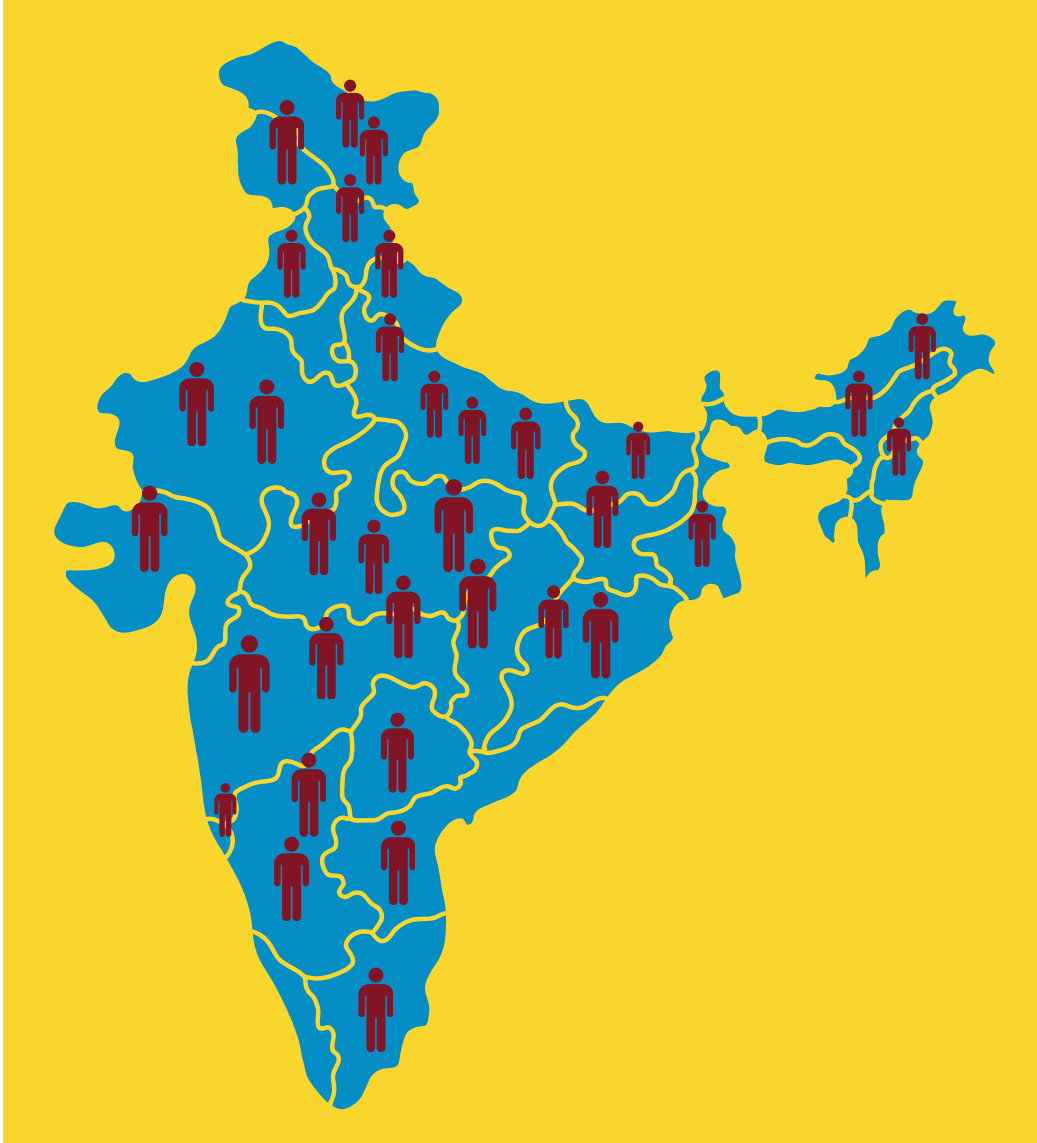

We are enhancing the quality of education through several key initiatives:

- 1. Discourse-Oriented Teaching:** Our pedagogy focuses on engaging students in meaningful discussions and critical thinking, fostering a deeper understanding of the subjects.
- 2. Advanced Technology Integration:** We leverage Google Workspace and Google applications to create an interactive and dynamic learning environment. This technology not only aids in teaching but also helps in tracking progress and providing personalized support to each student
- 3. Highly Qualified Mentors:** The mentors who are teaching and developing the content are subject matter experts and highly qualified teachers. Their expertise and dedication ensure that the education provided is of the highest quality.

Equity:

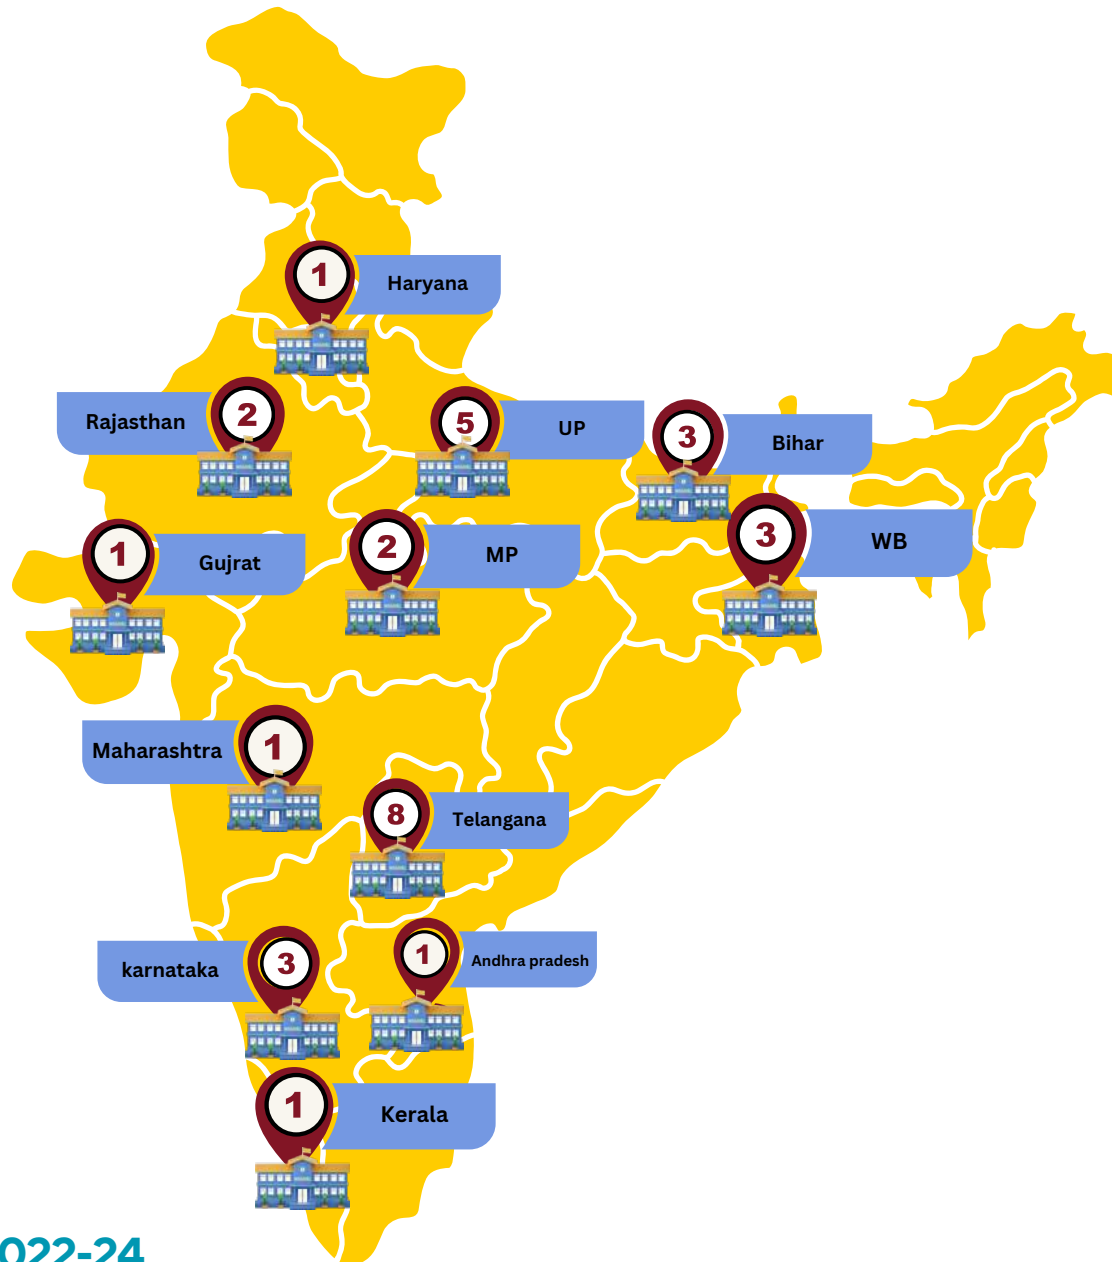

To ensure equity, NEIEA offers free online education to all underserved children. By removing financial barriers, we guarantee that no child is deprived of quality education due to their economic status. This approach ensures that every child, regardless of their background, has equal opportunities to learn and succeed.

NATIONWIDE REACH AND IMPACT

NEIEA is dedicated to serving the entire state of India with its comprehensive educational initiatives. Through our extensive network of partnerships and collaborations with various institutions, we have successfully extended our reach to learners in every corner of the country. Our programs are designed to be inclusive and accessible, ensuring that children from all states, including the most remote and underserved areas, have the opportunity to benefit from our free online courses. This nationwide presence underscores our commitment to making quality education a reality for all children in India, regardless of their geographic location.

OUR INSTITUTIONS SPANNING ACROSS INDIA

HOW CAN YOU SUPPORT US?

BESCO, BHAGALPUR

NEIEA is dedicated to providing quality education for FREE to all. Alone we can do little together we can do so much Invest in education. Donate generously. Transform lives.

- **Sponsor a Child:** Commit to sponsoring a child's education for a year **@Rs 500/month.**
- **Support a Coordinator** **@Rs 10,000/month.**
- **Sponsor a Mentor Teacher** **@Rs 25,000/month.**
